Microsoft

First Quarter Fiscal Year 2027 Outlook

July 29, 2026

Satya Nadella
Amy Hood
Jonathan Neilson

This presentation contains forward-looking statements, which are any predictions, projections, or other statements about future events. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could materially differ because of factors discussed in today's earnings press release, in the comments made during the conference call, and in the Risk Factors section and other sections of our Form 10-K, Forms 10-Q, and other reports and filings with the Securities and Exchange Commission.
We do not undertake any duty to update forward-looking statements.

FY27 Q1 Outlook

Foreign currency impact	• Decrease to total revenue growth by less than 1 point, with roughly 1 point in Productivity and Business Processes, less than 1 point in Intelligent Cloud, and no meaningful impact in More Personal Computing • No meaningful impact to COGS or operating expense growth
Total Company	• Revenue of $89.85 to $90.95 billion
Productivity and Business Processes	• Revenue of $36.7 to $37.0 billion
Intelligent Cloud	• Revenue of $40.95 to $41.25 billion
More Personal Computing	• Revenue of $12.2 to $12.7 billion
Cost of revenue	• COGS of $29.6 to $29.8 billion
Operating expenses	• Expenses of $16.8 to $16.9 billion
Other income and expense	• Expected to be roughly $(100) million excluding any impact from our investments in OpenAI
Operating margin	• Expected to remain relatively flat year-over-year
Effective tax rate	• Approximately 20%
Capital expenditures	• Expected to be over $50 billion including the lease reclassification impact from the useful life update

FY27 Q1 Outlook Detail

Commercial Business

Commercial bookings	• Healthy growth on a growing expiry base when adjusted for OpenAI contracts in the prior year
Microsoft Cloud gross margin percentage	• Relatively stable quarter-over-quarter

Productivity and Business Processes

Microsoft 365 Commercial cloud revenue	• Growth of approximately 15% in constant currency • Growth of approximately 16% in constant currency when adjusting for prior-year in-period revenue recognition
Microsoft 365 Commercial products revenue	• Growth in mid-single digits
Microsoft 365 Consumer cloud revenue	• Growth in the mid-teens
LinkedIn revenue	• Growth in high-single digits
Dynamics 365 revenue	• Growth in low-teens

Intelligent Cloud

Azure and other cloud services revenue	• Growth of approximately 45% in constant currency
Server products revenue	• Decline in low- to mid-single digits

More Personal Computing

Windows OEM and Devices revenue	• Decline in low-twenties
Search advertising revenue (ex TAC)	• Growth in mid-single digits
XBOX revenue	• Content and services revenue expected to decline in mid-single digits • Hardware revenue should decline year-over-year

Outlook

2026 Calendar Year

Capital expenditures	• Investment expectations remain unchanged. Capital expenditures are expected to be approximately $175 billion, including the impact of the useful life change on future lease classification.
Azure and other cloud services revenue	• Growth in H1 of FY27 expected to accelerate when compared to H2 FY26

FY27 Full Year

Foreign currency impact	• Decrease full-year revenue growth by less than 1 point • No meaningful impact to COGS or operating expense growth
Revenue	• Total revenue expected to grow double-digits
Microsoft 365 Commercial cloud revenue	• Growth expected to show acceleration through the year
Microsoft 365 Commercial products revenue	• Decline in the mid-single digits
Server products revenue	• Decline in the mid-single digits
Windows OEM and Devices revenue	• Decline in high-teens
Operating expenses	• Growth in mid- to high-single digits
Operating income	• Operating income expected to grow double-digits • Operating margin expected to be down less than a point
Effective tax rate	• Approximately 20%
Capital expenditures	• Expected to grow year-over-year
Cash flow	• Free cash flow expected to remain positive
